

Description

Marking Dye Red is a highly concentrated liquid spray marker formulated to provide clear visual identification of treated areas during agricultural, horticultural and commercial spraying applications. It helps improve application accuracy by clearly indicating spray coverage, reducing the risk of missed areas or overapplication. Ideal for use with herbicides and as a colouring agent in foam marker systems, Marking Dye Red produces a bright red foam for improved visibility during spraying operations. It is suitable for a wide range of applications where clear visual confirmation of spray coverage is required. Its concentrated formula provides economical application rates while helping reduce product waste and improve spraying efficiency. Marking Dye Red is also available in blue to suit a variety of operational requirements.

MARK IT DYE | RED

Red Liquid Marking Dye

Features & Benefits

Highly concentrated.
Readily Dilutable

For Use On

Herbicide spraying
Pesticide spraying
Any area where visual evidence of spraying is required.

Directions for Use

Premix 100ml per 100L or for more intense colour, premix 150ml per 100L.
Add premix solution to spray tank or knapsack.
Thoroughly rinse all spraying equipment after use as residue can cause discolouration of subsequent sprays.

Technical Information

Appearance: Deep Red Liquid
Odour: None
Solubility in Water: Miscible in all proportions

Available Sizes: 1L | 5L | 20L | 200L | 1000L (IBC)

pH: 5 - 6 (Slightly Acidic)
Specific Gravity: 1.04

Safety

Keep out of reach of children. Avoid contact with eyes.
For further Safety and First Aid Information, please refer to the applicable SDS available on our website.
All information pertains to the **correct use** case.
